MAD CATZ PRO RACING FORCE FEEDBACK WHEEL **set up video**

Tightening the screws too much can cause damage to the wheel and pedals.

1

Place your Mad Catz pedals in the centre of the stand and drive 1 conical screw (M6x80) with distance bushing at/from the bottom of the pedals to fix it with the shaped mounting flat to the stand. Next drive 2 conical screws M4x55 with 2 M4 cups to fix it firmly. **See set up video.**
